Located in some of the most impressive corners of the world, our villas are still hand painted by their style, individuality, comfort and diversity, all chosen for a "wow" factor, whether it's an exceptional view, an unusual story, a fabulous garden or an impressive pool of infinity. See all destinations Dear Mrs. Mahon, Thank you for taking the time to provide us with your comments. I can confirm that many of our employees were in Furlough's permission for 2020 and 2021, which was the same for all travel companies and in fact many other industries. I am sure that these delays were simply a result of the worst pandemic in the travel industry and probably the world has faced and not due to any Abercrombie failure " Kent had any control over. I apologize again for any delay in responding to your queries and organizing the requested chef services in the villa. Please note that on September 07 a full response was sent to you with the requested receipts. As you are aware, we hoped that the chef would return from another commitment so that he could forward the receipts that were at home. As there were attachments in the email I sent you, could I have gone to your junk mail? Please, you could check and tell me if you still don't have a view of it so I can send back if necessary. I must say that I am a little surprised by your comments about our representative, as I have copies of all the messages between you that started the week before your arrival and were constant during your stay without the message being answered. I would respectfully remind you that the representative is taking care of all our clients in the same area at the time of your stay and is not a personal representative for you alone. If any of the answers aren't could have been helping other customers. I can apologize again if you felt that the remuneration service lacks any way and I can assure you that this was not intentional. As Up, a complete response was sent to all the problems posed last week, so that it is known if you cannot locate this in your email. The collection offers an elite selection of 40 villas based on star quality and Instagrammableness along with decoration, amenities, location and popularity with guests among other wow factors. Some villas have something extra, a wow factor, a je ne sais quoi that elevate it to the realms of the rare and extraordinary - and won them a place in the black collection. The honors of the Black Collection status offer a concierge service of Villas Gold or Platinum, ensuring that a stay in any of these properties has access to small black concierge books, providing interior access to the location. It is not only the maid service or the daily fresh flowers that raise them, are the experiences that come with it. Local knowledge and experience can make your vacation unforgettable. For example, in Florence guests can visit the region in a Ferrari and in France a Michelin Star chef can teach guests how to cook. The Gold Concierge service includes an introductory visit to the area where you stay and a grocery store waiting on arrival. The Platinum Concierge service includes all the services of Gold, but with additional bonuses of a luxurious hotel stay as a daily cleaning service and fresh flowers.
